OFFERS AN OPPORTUNITY to the Young to receive such treatment and instructions as their teeth require. The children should visit the dentist as often as once in three months to insure a regular and healthy development of the teeth.

I would urge more attention to the children's teeth than is generally given, especially to the deciduous, or first teeth; give them as much attention at least, as is given to their dress. Do this, and my word for it, there will be, in after years, but little occasion for artificial teeth,

It should not be forgotten that **Nitrous Oxide** is administered daily for extracting teeth, with the greatest satisfaction by

PROPOSALS.

Proposals for Two Steam Light-House Tenders.

Treasury Department,
Office of the Light-House Board,
WASHINGTON CITY, July 10, 1871.

SEPARATE SEALED PROPOSALS will be received at this Office until one o'clock P. M., on Friday, the 28th of July inst., for furnishing the materials and labor of all kinds necessary to construct, complete, and equip two steam Light-house Tenders, in accordance with the drawings and specifications.

First. For a SIDE-WHEEL STEAMER, 157 feet long, 26 feet greatest breadth of beam, and 9 feet depth of hold.

Second. For a PROPELLER STEAMER, 130 feet long, 25 feet 8 inches greatest breadth of beam, 11 feet 3 inches depth of hold, and of about 350 tons burden by old measurement.

The printed specifications, plans, and drawings of each of these vessels, with forms of bid and guarantee, may be had on application to this Office; the L. H. Engineer's Office, Baltimore, Md.; L. H. Inspector's Office, Philadelphia; Custom-house, Wilmington, Del.; L. H. Inspector's Office, No. 16, Broadway, N. Y.; L. H. Inspector's Office, Boston, and also at the L. H. Inspector's Office, Portland, Me.

Each vessel must be bid for separately, stating the sum for which the vessel (side wheel or propeller) will be furnished, completed, and the time when it will be delivered in a complete and satisfactory state to the authorized officer or agent of the Light-house Board. Bidders, who are shipbuilders, will state in their bids the name of the party or parties who are to build the engines, boilers, &c.; and bidders who are engine builders, &c., will state in their bids the name of the party or parties who are to construct the hull, &c.; and each party bidding is required to furnish satisfactory evidence of his ability to execute the work in a satisfactory manner, according to the terms of the advertisement, specifications, and drawings, (should the contract be awarded to him,) within the time named in his proposal.

Each bid must be accompanied by a written guarantee, signed by the bidder and competent surety, (certified to be such by some officer known to the Treasury Department,) in the sum of ten thousand dollars, ($10,000,) that in the event of the acceptance of such bid the necessary contract will be entered into within ten days after notice is given by the Board that the bid has been accepted.

The party or parties to whom the contracts are awarded will be required to enter into contract within ten days from the date of the notification that his or their bid has been accepted, with a bond and satisfactory security attached, for the faithful execution of the work contracted for, and as security for the whole of the stipulated advance payments to be made as the work progresses.

The works will be carried on under the personal supervision of agents of the Board, and all facilities must be afforded them for inspecting the materials and the workmanship. Such parts of either as are not in accordance with the drawings and specifications will be rejected, and must be made good by the contractor or contractors.

A copy of the plans and specifications of each vessel bid for must be enclosed with the bid as evidence as to the object of the proposal.

The Board reserves the right to reject any proposal for any reasons it may deem sufficient.

Payments will be made as the work progresses satisfactorily, as set forth in the printed specifications of each vessel.

Bids will be opened publicly on the day and at the hour above-named in this advertisement.

All bids must be carefully sealed, and endorsed "Proposals for building a Side-wheel Light-house Tender," or "Proposals for Building a Propeller Light-House Tender," as the case may be, and then be placed in another envelope, and addressed and delivered in person, or sent through the mail, *prepaid*, to the Chairman of the Light-House Board, Washington City.

Proposals for Altering and Repairing the Light-House Tender "Iris."

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD.
Washington City, June 23, 1871.

SEALED PROPOSALS will be received at this office until 1 o'clock P. M., on Friday the twenty-eighth day of July next, for altering and thoroughly repairing the Light-House Tender "Iris," (now at Portland, Maine, where she may be examined at any time,) according to the printed, detailed specifications, and plan of the vessel, which will form a part of the contract, copies of which may be obtained upon application to the Light-House Board, and at the offices of the Light-House Inspectors at Boston and Portland, and also at the Custom-Houses at Portsmouth, N. H., and Ellsworth, Maine.

Bidders are required to state (in submitting their bid-) the time within which they will contract for the entire satisfactory completion of the work according to the terms of the specifications, in case of acceptance, and to be guaranteed by satisfactory security.

For full details, see printed specifications, plan, and the form of bid and guarantee required. The right is reserved to reject any bid, or all bids, for reasons other than the price that may be named.

All bids must be carefully sealed and endorsed "Proposals for Altering and Repairing Light-House Tender "Iris," and then be placed in another envelope and addressed, for delivery in person, or be sent through the mail *prepaid*, to the "Chairman of the Light-House Board," Washington City.

New Orleans, Mobile and Texas

Railroad Company

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles,

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Lousiana. The price of the two classes is the same, and subscribers can take

A New Reason for the Revival of Shipbuilding.

Mr. Kimball makes the encouragement of shipbuilding one of the points in his letter accepting the Democratic nomination for Governor. We are glad that he did so. Both parties ought to unite in a vigorous effort to accomplish what all concede to be for the common good. There are those who contend that the suspension of American shipbuilding is not so ominous an occurrence as it has been represented. They point to the decline of the same industry in the British Provinces and even in Great Britain itself, where none of the extraordinary causes which are said to account for it here are in operation. They show that the employment of steamers and iron vessels for the transportation of merchandise has lessened the demand for wooden tonnage. These suggestions no doubt have some truth, but they certainly afford no explanation of the fact that even the tonnage required for carrying our exports and bringing our imports is not furnished by us but by foreigners. It is not so much the decline of the shipping interest as its transfer that is appalling.

But a new demand for shipping is likely to spring up in case all the provisions of the treaty of Washington are carried into effect. The immense grain crops of the West which in great part seek the Atlantic seaports by rail or by the Erie canal at immense expense to the producer, naturally seek an outlet by water. If the route by the Lakes and the St. Lawrence were unobstructed, much the larger part of the corn and grain would find its way to market by the longest water route. Under the treaty of Washington all artificial obstructions to commerce will be removed, and the improvement of the old canals and the building of new ones, like that projected from the St. Lawrence to Lake Champlain, will remove the natural ones. Here, then, will be a new demand for shipping. As matters stand at present the new tonnage required will certainly be furnished by the Provinces, for they can build it cheaper than we because they have cheap lumber and cheap iron. The prize is worth contending for, and our neighbors will certainly gain it if we do not enter the list with more vigor.

But there is a still more interesting consideration for Maine. Under the treaty the right to the fisheries is secured to us in such a way as to inspire capitalists with confidence in the permanence and safety of that business. In the natural course of events there would be a great revival of this industry all along our coasts just as soon as there is the proper legislation to carry out the provisions of the treaty. But as it is, the Provincials and not our people are likely to reap all the advantage from the new arrangements. With free access to our markets and with their better facilities for building and fitting out vessels they will have an immense advantage.

There are many who object to the schemes for reviving shipbuilding that have been proposed because they are not based on a general revision of the tariff for the benefit of all industries instead of on an exemption of this single industry from its operation. But if it becomes certain that it is useless to hope for this general revision—and neither party can justly accuse the other of being solely responsible for refusing it—then it is eminently proper that shipbuilding should be regarded as an exceptional case and its claims to special relief should be recognized. The influence of the tariff on other branches of industry may be malign, but here it has been absolutely destructive; and if drawbacks and bounties are the only practicable means of preventing the annihilation of American commerce they should be cheerfully granted.

That Local Police.

Several ex-confederate Congressmen and ex-rebel judges and other dignitaries of the late Confederacy, have testified before the KuKlux Committee that such an organization as the Klan does not exist and never did exist except as a kind of "local police" that has always existed to terrify evil doers even before the war. This is undoubtedly true. We have read of the tarring and feathering of abolitionists, of ordering men suspected of entertaining abolition sentiments out of town, backed by wholesome advice "to dust quick," and of post-masters, who added to their other duties, a censorship as to what was fit to go through the mails, always throwing out the New York *Tribune* and papers of like sentiments. The ex-dignitaries admit that in some cases this local police force has been rather severe, as indeed it has been the past, but its general object has been a laudable desire to maintain peace and quiet.

The testimony before the Ku Klux Committee, with the exceptional instances of a few ex-confederate officers, lead to the conclusion that as a police organization it has peculiar methods of enforcing the observance of the laws. For instance, the store of a Northern man in South Carolina was blown up and his property destroyed by an armed and disguised band and he and his clerk would have been shot had one of the parties not belonged to a society that insures personal safety to its members. The only crime that this man had committed was to rent land and sub rent to colored men. In Mississippi, a young man was compelled to leave his grown crop and property at the order of this "local police" because he had the misfortune to be born in Massachusetts. Officers, elected by the people, have been taken from their houses and murdered simply because they undertook to enforce the laws as they had sworn to do. Prominent men in State Legislatures have been murdered by the local police; hundreds of men have been taken from their homes in the dead of night by this local police in disguise, and whipped until they promised not to exercise the right of suffrage as conferred upon them by the Constitution of the United States. By this "local police," in a half dozen counties in North Carolina, fifty-seven men were murdered and over two hundred maimed and brutally beaten.

The Ku-Klux, these gentleman and the Democratic organs inform us, does not exist, or if it does, is a mythical order and very peaceful, yet we notice that a grand jury in the Northern District of Mississippi has just returned forty-five bills of indictment against over three hundred persons, for murdering, whipping, and putting in peril the lives and persons of freedmen. For one session of court, this may be considered a tolerable allowance, and if it indicates anything, it shows that the jury was not satisfied of the truth of the editorials in Northern Democratic newspapers In fact, the disagreement is total, Which is most likely to be mistaken in its facts?

A CLASS of reformers do not reform because they can earn their bread-and-butter easier by this new profession than by engaging in a more useful employment, set themselves to deploring the buiness condition of the country. While these is a general depresion in some intersts all over the world, in England as well as the United States, there is no cause for this general lamentation. Compared with twenty years ago, laborers are better paid, better clothed and have vastly more advantages now than then.

In our own state twenty years ago, few laboring men were depositing money in savings' banks. At that time there were not a half a dozen such institutions in the State, and the great increase of these institutions the past ten years has been demanded by a class of laboring people who have saved by prudence small sums, for investment. While others have availed themselves of these institutions, the testimony of the officers as well as the returns of the Examiner show that the deposits are very largely made by a class which a good old Democrat in South Carolina termed "the greasy machanics and small fisted farmers—the mudsills of New England."

THE few attempts made in the excitement of the New York riot to organize a religious or an American party meet with little encouragement, but as much as such a movement deserves.

Political Notes.

Three Concord paper, the Daily Monitor, the Weekly Independant Democrat, and the Republican Statesman, are to be consolidated into one party organ, which will be published under the auspices of a Republican committe.

In one of the counties of south Carolina at the last election the Republican ticket was marked by an eagle, and that of the democracy with lines of mourning for Robert E. Lee.

J. Proctor Knott, the eulogist of Duluth has turned his attention to the new democratic departure, which he does not like at all. He says it is "too deep for him, unless it is intended as a platform on which some Presidential candidate can stand with safety and comfort, or unless some Democrats, having discovered that the Radical party is going to destrucrion on a 'down grade with the brakes off,' have determined to beat them by jumping on to the 'cow-catcher.''

The Republicans of Ohio open their campaign on the evening of the 24th of August, with eleven meetings in different parts of the State. General Noyes and James Monroe will speak in Columbus, Senator Morton in Dayton, Gen. Garfield in Cincinnati, Senator Sherman in Toledo, Samuel Shellabarger in Cleveland, Gov. Hayes in Zanesville, Aaron E. Perry in Portsmouth, John A. Bingham in Stubenville, Lieut. Gov. Lee in Akron, Secretary of State Sherwood in Mansfield, and Wm. Lawrence in Lima.

The Thorlo Family.

NEWBURYPORT, July 16, 1871.

MR. EDITOR:—Sometime ago you had a notice in your paper of the death of a person by the name of Thorlo, who went from Newbury in early life. By the politeness of one of the relatives he has given me the following which I thought might be interesting to some of your readers. Francis Thorlo came to Newbury in 1651. The Thorlo coat of arms: Azure; A. Jacob's staff or in chief: two estoils of the record is borne by the name of Thorlo, and was granted to John Thorlo, Lord of the Manor of Burnham Overy in the county of Norfolk, England, Gentlemen, who had for divers years travelled over Europe, Africa and America. Granted in the sixteenth year of Charles Reign, November 19, 1664. Azure field, Bluelolour on Staff, horizontally laid in the field. "Estoils" signifies two stars.

Their name is now spelt Thurlo; sometimes a w has been added to it; the name was former ly pronounced Thuril. I have the above information from Capt. Jesse Thurlo, who was born in Newbury July 7, 1789. Knowing him I shew him the article I refer to. Feeling interested he has hunted up what I have written, and wished me to send it to you.

The name has been spelled: Thorlo, Therlow, Thorlaw, Thurlo.

Truly Yours, A. D.

Who Controls New York?

Since the riot of last Wednesday, in which was exhibited so much of intollerance and such lack of spirit by the city authorities, the question has been raised, "How far the Catholics, as a religious sect, are controlling the city, and what means that church is taking to fix its power more fully. It has been ascertained that in some of the lower Wards they have full control of the schools, and are each year making further encroachments. Where the clergy cannot get control of the schools so as to practically abolish the reading of the Bible, as has been the case in many schools, they pursue an inimical course that causes most of the Catholic children to leave. In some schools where the Catholics have the school officers the Bible has not been read for twenty years, although the rule requires it, and in many others the Scriptures have been abolished many years. Rev. Father Quinn, a priest of great influence, denounces in furious tirades the public schools, their founders and supporters. In one week he frightened eighty-five children from the public schools into his parish school by threatening them with all the punishments that his church has invented.

A man's religion should not debar him from the right to positions of trust and honor; and the question would never have arisen but for the events of last Wednesday. It is found, however, that all the important city offices are headed by Roman Catholics except the Mayor's. An idea of how thoroughly the city government is in the hands of this church may be seen from a list of some of the city officers. The following are Roman Catholics:

Peter B. Sweeney, President of the Central Park commission.
Richard B. Connolly, controller.
Bernard Smyth, receiver of taxes.
Richard O'Gorman, corporation counsel.
James B. Nicholson, commissioner of charities.
Owen W. Brennan, commissioner of charities.
William Hitchman, president of the fire department.
John H. Williams, president of the board of excise.
Matthew T. Brennan, sheriff.

J. H. McCunn, judge of superior court.
J. R. Brady, judge of supreme court.
C. P. Daily, judge of court of common pleas.
James M. Sweeny, clerk of supreme court.
L. Clancy, clerk of marine court.
Thomas J. Barr, police commissioner.
Robert C. Hutchings, surrogate.
Richard O'Gorman, president of commission of emigration.
Thomas J. Creamer, tax commissioner.
John Galvin, president of board of assistant aldermen.
William H. Maloney, clerk of board of assistant aldermen.
Thomas Coman, president of board of aldermen.
John J. Bradley, chamberlain.
Edward Hogan, judge of police court.
Thomas A. Ledwith, judge of police court.
E. J. Shandley, judge of police court.
John McQuade, judge of police court.
Dennis Quinn, civil judge.
Thomas Kivlin, civil judge.
Joseph McQuire, civil judge.
William J. Kane, civil judge.
Bernard Smyth, president of the department of public instruction.
John Mullaly, health commissioner.

Mr. Thomas Nast, whose industrious pencil has supplied so many capital caricatures of late to Harper's Weekly, bore a soldier's share in the suppression of the riot in the ranks of the 7th regiment, of which he a private. We do not doubt that this quick eye caught many of the more comic and grotesque incidents of the day for future illustration.

An American shipmaster, who has studied the subject, says that with American mechanics and American material "we can take the English Lloyd's rules and reduce them twenty per cent., and build a ship stronger, more durable, and consequently more seaworthy than can now be built in any part of the United Kingdom."

The July returns show that the increased acreage in corn is 3,000,000 bushels; the returns also show that winter wheat is above the average, and that spring wheat presents a worse appearance than for several years, and will reduce the aggregate below the average.

A young lady, resident of Ozaukee, Wis., who was supposed to be dead the other day and sent to Rochester, N. Y., for interment, has since altered her mind and returned home to look after things as of yore.

In Connecticut forty-eight applications have been made for admission in the Sheffield Scientific School and one hundred and nineteen applications on Friday and Saturday for admission in the Freshman class at Yale. Eight of these were from Williston Seminary, East Hampton, Mass., and ten from Phillips Academy, Andover, Mass.

One of the many Misses Young was recently spoken to by her father, Brigham, in reference to a proposal of marriage from a Salt Lake merchant. The young woman, with considerable spunk, replied:—"I am willing to marry a dozen husbands if you will let me select them for myself, but I will never put up with a piece of a man."

According to returns made to the Bureau of Statistics of the Immigrants who arrived in the port of Baltimore during the quarter ending June 30, 1871, the whole number was 5599, of whom 2925 were males and 2674 females. Out of 2005 males over fifteen years of age, the occupations of 1480 are given.

It is expected that between two and three hundred women will attend the next term of the Michigan University. Of the thirty in attendance last session not one failed.

Twelve miles of the new extension of the Great Falls & Conway Railroad is completed to North Wakefield, and the first train from that station run over the road Monday morning. The work on the road is being rapidly pushed forward and trains will be running to Conway before the winter.

Seven convicts recently dug out of the Dayton (O) county jail, among whom was McGehan, in whose defense Vallandigham lost his life.

GEN. BUTLER'S announcement in a letter called out by a letter from the publisher and editor of the Sunday Morning Chronicle of Boston, takes the Massachusetts papers by surprise. The letter of inquiry contains four questions. To the first, which asks Gen. Butler if he intends to allow the use of his name as a candidate for Governor, the following unequivocal reply is given:

In view of the present political situation of parties in Massachusetts, and of the withdrawal by the present incumbent of the office of Governor of his name for re-nomination, I do propose to allow my name to be used before the Convention for that high office. It is one that may fill the honorable ambition of any man; and like every other object of honorable ambition, is to be sought for by all proper means.

The next question propounded is whether or not Gen. Butler promised Dr. Loring his aid when the latter should be a candidate it Loring would retire from the field for Congress in 1866. This, General Butler denies with some warmth.

The fourth asks him what policy he will pursue, if elected, with reference to the prohibitory liquor law? Gen. Butler's reply is ingeniously evasive, as will be seen by his answer:

It is the sworn duty of the Chief Executive to allow neither officials, corporations, nor any body of men whatever to act their pleasure in obedience or disobedience to law. Gen. Grant never gave expression to a wiser saying than the declaration "that the best way to learn whether a law is obnoxious or salutatory is to enforce it." The prohibitory law is either desired by the people of the Commonwealth or it is not. If not desired, it should not remain on the statute book If desired, it should be enforced; and so long as it remains repealed its enforcement is a not-to-be-evaded duty. In regard to this as to every other law, whatever may be the opinion of the Executive upon its propriety or expediency, it ought to be fully executed.

As yet no Boston paper has appeared to advocate Gen. Butler's case, while the most of them are opposed. The Advertiser thinks Gov. Claflin may yet solve the question by consenting to run, and hopes that Gen. Butler, if he fails in the Convention, as is almost intimated, will not play the part of Mr. Phillips.

The Journal takes no ground as yet, but its tone is not favorable to General Butler. The Traveller has already declared for Dr. Loring, but makes no comment upon General Butler's letter.

THE NEW YORK POST, in a leading article on the corruption and misrule of the Tammany ring, says that the present character of the city of New York, which takes all power from the people and concentrates it into the hands of four men, cannot be repealed unless the legislature has a majority of honest men, and until it is repealed, expunged, "wiped out,' the men who now misgovern New York, who have so monstrously increased its debt in the last two years, who have just disgraced the city and State by their pandering to a mob, these men cannot be removed. It does no good to elect a new Mayor under the present charter, for the subordinate officers appointed by Mayor Hall hold over for a term of years, and if an honest man were Mayor he would be powerless.

To redeem the city, therefore, we must first redeem the State; and the Republicans can do that if they try; if they are earnest for reform; if they will unite, and put forward honest and true men. They will not have so good an opportunity again for years; for they have now the honest voters of all parties with them.

THE correspondent of the Boston *Advertiser* says of the Bowdoin commencement dinner:

"Any review of commencement would be incomplete, if it did not mention the dinner. The dinner proper was as detestable as ever, but the speeches were far superior to those ordinarily heard. The bland voice and the graceful sentences of President Woods are always heard with delight. He to took upon himself the delicate work of speeding the parting and welcoming the coming President. It would be difficult to tell how admirably he performed the task, and the only exception any one could have taken to what he said was when he went out of his way to refer to the sword of Gen. Lee as 'unstained by any dishonor,'—a sentiment that was received in respectful silence."

THE horse Longfellow that run a mile on the Saratoga course in one minute and forty seconds, the fastest time on record in this country, is not named for the poet but for the owner, Mr. Harper, who stands six feet two inches without his boots.

Thompson) will be one of the features of the banquet to be given at the St. James hotel.

ANDROSCOGGIN COUNTY.

The Lewiston Journal says people are buying hay now largely at $30 per ton. One gentleman in Lewiston bought 30 tons of one farmer Friday, paying $900 therefor. Some people predict hay will yet be worth $40 a ton, but we don't take stock in that prophecy.

The Lewiston Journal gives an important decision of Judge Luce, in the Municipal Court of that city, and one which is of interest to operatives. It was the case of Johnson *v.* Worumbo Manufacturing Company. The plff. in this case sued for $41, which he earned in the employ of this company as spinner, and which they refused to pay on the ground that he left their employ without working the two weeks notice required by the regulations of the company, which he had signed, but which have been decided to be binding even though *not* signed, if the employee is aware of such regulations. The facts of the case are briefly these: The spinners were requested by the overseer to work extra time as their department of the work was behind. Several were unwilling to do so and among them Johnson. The agent then went to each man separately, and demanded whether or no he would work extra time. The reply of Johnson and several others was "no." The agent simply wrote their names in a little book and left the room. They immediately stopped work, went to the agent and asked him if he intended to discharge them. He said he should do as he pleased about it, and they went back to their room and remained there talking till five minutes of six and then left the mill, about an hour before the usual time. The overseer, supposing they had left, immediately engaged hands to take their places. The next morning they did not go into the mill but at half-past eight went into the counting room, to settle, as they claim, or to offer to work their notice, but were ordered to leave. The court decided that in the absence of any stipulated contract, they were bound to work the usual time, from half-past six A. M., to quarter of seven P. M., and that when they left off work at 4 o'clock P. M., and left the mill at six without permission they thereby violated their contract and forfeited their wages. The agent was not bound to take them back in the morning, even if they had gone at the usual time.

We learn from the Voice that Justice Perry of Sherman, having privately obtained a certificate of marriage, persuaded a little girl of thirteen years to leave her parents, and took stage toward Mattawankeag with the young child, but was overtaken at Mr. Donavon's hotel, four miles away, by the child's father, and relieved of his charge, all too soon for the accomplishment of his purpose.

The Augusta Journal says that the freight agent for the Maine Central Railroad Company in Augusta, finds that the receipts for freight delivered by him to parties in Augusta, during the first five months of 1871, have been more than double the amount received during the corresponding months of 1870 or of any past year.

The Pittston Representative District is apportioned as follows: Pittston to send for 1872 1874, 1876, 1878 and 1880; West Gardiner for 1875 and 1887; Farmingdale for 1873 and 1879. For session of 1881, the candidate is to be selected by a joint convention of the Republicans of West Gardiner and Farmingdale.

PENOBSCOT COUNTY.

The Bangor Whig says a boy about 12 years of age, son of the steward on the dredging machine, now at work in the Penobscot river below Bangor, was missed on Thursday forenoon and it was feared that he had fallen into the water and was drowned. These fears were confirmed in the afternoon, for the huge grapples employed in digging out and raising the edgings and other rubbish from the bottom, lifted the body of the boy.

The Whig says Saturday afternoon a joiner connected with a shingle machine in Cutler, Thatcher & Co's mill at Great Works, burst with a report like a cannon, and thoroughly demolished the machinery connected with it. The jointer was a cast-iron wheel four feet in diameter, with plane knives in the periphery, against which the edges of the shingles were held to joint or smooth them. One piece of the rim went through the roof and fell on the opposite side of the river, and another burst through the roof in a contrary direction. A young man from Bradley, named Doro Cram was at work on the shingle machine, and was thrown some distance with it, falling amid a a perfect shower of timber and pieces of machinery. He was senseless for a time, but soon revived, and if not internally injured will probably recover, though he was at first thought to be dead. The ordinary speed of the jointer is from 1200 to 1500 revolutions per minute, but it seems that Cram had without authority and unknown to any one, changed the pulleys and doubled the speed, which caused the accident. A number of other men were at work near by when the jointer burst, but they fortunately escaped injury.

YORK COUNTY.

[From our Correspondent.]

A large, two-story, double house, known as the Deering place, near the Robinson schoolhouse in Kennebunkport, was consumed by an accidental fire Saturday afternoon. The timely aid of neighbors saved the adjoining barn. No insurance upon the half owned and occupied by John M. Smith. Upon the other half a small insurance had recently been taken in the Mutual Insurance Co., of Saco, by Mr. W. F. Moody, as administrator of the estate of Ira Deering.

Schr. Eliza Matilda, Capt. Heckman, from Boston, arrived at Kennebunkport Sunday afternoon with the dead body of Mr. Charles Googins, a hand on board the vessel, who died suddenly on the passage down. Mr. G. was about 21 years of age, and lived at Kennebunk Landing

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E. & N. A. RAILWAY is completed from Bangor, Maine, to St. John, New Brunswick, a distance of 262 miles,—with the exception of 58 miles between Winn, Me., and the boundary line of the State at Vanceboro'. On this portion the track is now being laid, both from Winn *eastward* and from Vanceboro' *westward*, and the work will be completed and trains running from Bangor to St. John in September next.

The road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia). The population of the maritime Provinces is about **ONE MILLION**, and all the land travel, freight, mails, &c., between them and the United States, will pass over this Trunk line, which is **WITHOUT COMPETITION**. Although not yet completed, the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing.

The net earnings **from Local Business alone**, on the 56 miles completed in Maine, already exceed the interest on two and one quarter millions of dollars, and will be largely increasing after Sept next by the business to and from the Provinces.

To complete this road, and to equip it as fully as its present large business and the immediate increase consequent upon its completion, requires,—the Company has issued its Bonds to the amount of Two Millions of Dollars, secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN to VANCEBORO' (besides a *Second* Mortgage on the entire road and equipments from Bangor to Winn, 56 miles. This portion cost some $2 300,000, and the only lien thereon is a mortgage to the city of Bangor for $1,000,000) —and, in addition thereto, by a **FIRST AND ONLY MORTGAGE** on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of this road. They are situated along the Penobscot and St. John rivers, and are heavily timbered and valuable. Large tracts, especially in the fertile Aroostook Valley, (the finest agricultural district in the State,) are valuable for farming lands as well as for their timber. This immense grant of lands equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1250 square miles (nearly as large as the State of Rhode Island, which is 1306 square miles,) and are of great value.

Thus, besides the mortgage of the Railway, its equipments, &c., which alone is ample security for the Bonds, there are timber and farm lands to the amount of

400 Acres to each Bond

also pledged to ensure the payment thereof.

The Bonds are for $1000 each, due March 1, 1899, bear interest at

SIX PER CENT. PER ANNUM,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD COIN,

Free from U. S. Taxation.

Coupons payable March 1 and September 1, in New York. Bonds registered if desired. Coupons made payable (66 each) in London, England, if preferred.

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees, to be invested in these Bonds if they can be bought at par or less; otherwise in United States, State or Municipal Securities. And on July 1, 1879, and annually thereafter until these Bonds become due or are all paid, the E. & N. A. Railway Co. is bound to pay to the Trustees a sum of money equal to one per cent. of the amount of Bonds outstanding. Such amounts, and all interest received on securities, belonging to the **Sinking Fund** are to be invested as above stated, and these accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. The Sinking Fund constitutes a third great element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon. HANNIBAL HAMLIN, of Bangor, Me., and J. EDGAR THOMSON, Esq., of Philadelphia, Pa.

The Trustees are authorized to receive the Bonds at **Par and Accrued Interest** in payment for any of the lands at their appraised value.

These very desirable securities for sale at

90 and Accrued Interest in Currency.

U. S. Bonds and all marketable securities received at highest market price in exchange for these Bonds, and can be sent by Express and these returned by Express, free of expense to the purchaser.

Pamphlets giving further particulars concerning the connections and business, with Maps, showing the location and lands of this road, sent free on application to

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those nearand dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Dyspepsia is now progressing, without its previous tortures. Dissolution becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cooperates to expel. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the patient, painfully emaciated, the rotten throne that it occupied is renovated and made firm, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; if it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of the blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 A. M. to 3 P M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them. First, comes appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated, in a short time both of these morbid symptoms are gone forever.

Dr Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, $1.50 a bottle, or $7 50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

Brief Jottings.

The Brown Memorial Scholarship prize of $50 for the Sophomore year at Bowdoin College ending at Commencement July 12, 1871, has been awarded to Nathan Dane Appleton Clarke.

An effort is being made by some of the boating fraternity to get up a general regatta, in which all the club boats in the harbor—sailing and rowing—will be admitted.

The Haydn Association went down the harbor on board the yacht Ray yesterday.

Sch. yacht Kitty, from Boston, bound east, with a pleasure party, arrived yesterday.

The members of the Bates street Universalist society at Lewiston, will make an excursion to Portland and the islands on Thursday.

The new entries on the Supreme Court docket—law term—number 173, as follows:—Franklincounty 18; Oxford 19; Androscoggin 15; York 26; Cumberland 95.

Harry Fenn, a gifted New York artist, is to spend some weeks in sketching along the coast of Maine. As his recent visit to the South gave value to the pages of Appleton's Magazine, it is expected that the result of his tour eastward will be given to the public through the same medium.

At the semi-annual meeting of the Una Boat Club, A. E. Webb was elected President and W. K. Walton Vice President, R. W. Williams Treasurer, and E. P. Banks Secretary *pro tem.*

A man by the name of Ross fell into the dock Sunday morning while attempting to go on board the steamer Clotilda. He was rescued by officers Burnham, Williams and Hall.

A wealthy gentleman of this city, who has heretofore made the India Street Universalist Society the recipient of his favor, has contracted with a firm of plasterers for the plastering of the church. The contract has been signed and the contractors have agreed to have the work completed by the 21st of August. The gentleman to pay all the expense himself.

Sebago water has been introduced into the jail in this city.

The shower yesterday noon was a most grateful visitation. It cooled the atmosphere and made vegetation fairly laugh with joy.

The First Parish and Park street Sunday Schools go to Sebago to-day. To-morrow the Aged Brotherhood go to the same place. They are trumps. A surgeon will accompany the expedition to render aid in case the boys get hurt at base ball and other manly sports.

The Public Library is soon to be closed for a brief season, to give opportunity to re-arrange and repair the books.

Forest City Temple of Honor No. 1 is to have a clam-bake at one of the islands at or near Spurwink river.

It is expected that the Portland & Ogdensburg railroad will be completed to North Conway in about ten days.

Mr. George M. Harding is drawing the plan of a fine house to be erected by the Rev. J. C. Snow, at Stevens's Plains.

Mr. Benner is building a fine French roof house at Knightsville.

The Kreutzer Club has received invitations to give concerts at Old Orchard Beach and Biddeford Pool.

As the 3 o'clock train on the Grand Trunk railroad was leaving Pownal Monday afternoon, a man badly intoxicated attempted to get on the train, but got between the cars and would probably have been crushed to death, had not a man standing by summarily jerked him out of the reach of danger.

The members of Cumberland Bar have in contemplation the purchase of a portrait of Chief Justice Mellen, by a student of the late Charles O. Cole, to be placed in the Greenleaf Law Library, to replace the one destroyed in the great fire.

The Republican county convention will be holden in this city August 17th. The Democratic county convention meets here on the 24th of the same month.

Mrs. Olive Pond Amies is expected to take charge of the Teachers Department of Gorham Seminary next term.

The seats at the Catholic Cathedral are now sold on Sunday the same as at a place of entertainment; at prices ranging from 50 to 5 cents, according to location.

Yesterday officer Miles and Gribben arrested James Sullivan and James Wethering for stealing boards from the freight cars at the Grand Trunk depot.

Yesterday Samuel Moore, a sailor belonging to the schooner "Golden Rule," while intoxicated, fell on one of the wharves and cut a bad gash across his knee and several on his face. He was carried to the station by officers Gribben and Smith, where his injuries were dressed by Dr. Getchell.

Officers Smith and Gribben arrested a gang of boys yesterday for throwing stones at a house. One of the missiles struck an old lady who was inside.

The interior of the South Congregational church in Cape Elizabeth has been thoroughly renovated and repaired, and now presents a very neat and comfortable appearance. It is probable that the Rev. Mr. Nichols who is now preaching at the North church, will supply this pulpit half a day each Sunday. The rededication of the church is talked of.

It is probable that Miss Ada Cary, sister to the distinguished contralto, will sing in the concert Friday evening. It is said the natural qualities of her voice are not inferior to those of her sister. She is at present a pupil of Mrs. Dennett.

Augustus Manuel and Charles E. Eastman were arrested last night for an assault on Charles G. Smith and Fred'k H. Smith on Washington street.

EXCURSION AND CLAM-BAKE.—The committee met yesterday morning at ten o'clock to perfect their arrangements. Sufficient replies have been received to indicate a large turnout from abroad. Everything is substantially settled except as to the number of invitations to be given out. The committee desire to make the reception worthy of the character of the city. A distinguished gentleman, compelled to decline the invitation on account of a prior engagement says: "I beg to assure you of my entire support of the P. R. O. & C. railway, as destined to form the most important portion of the great trans-contintal railway, and to set the richest gem in the commercial crown of the Queen City of the East."

ILLNESS OF CHARLES AKERS.—We regret to learn that Mr. Akers, the sculptor, was attacked on Wednesday last with a dangerous hemorrhage from the lungs. On Saturday he was much better, and the physicians thought he would recover. The most cheering symptom is his own confidence. He sat up on Saturday and talked of going to his studio in a few days. He has but recently opened a studio in New York, but has made many friends some of them very influential, and has before him a very flattering prospect. His bust of Lucretia Mott has attracted especial attention and high commendation.

A RARE OPPORTUNITY.—This afternoon, at 2 o'clock, Messrs. F. O. Bailey & Co. will sell at auction that desirable piece of real estate on the corner of Spring and Emery streets. This is one of the most eligible situations in the city. The house has all the modern improvements. Lot is 128 1-2 x 117, containing over 15,000 square feet.

The same firm will sell at salesroom, at 11 a. m., furniture, carpets, &c. See auction column.

PERSONS having suffered for years past and doctored for Catarrh, Neuralgia, Sick Headache, Dyspepsia, Rheumatism, Weak Chests and Lungs, Asthma, Bronchitis, &c, now have an opportunity to eradicate their disease under the atmospheric remedial treatment at Cahoon Block. Consultation free. Resident patients now under treatment may be referred to.

HARPER'S BAZAAR.—The number for the week, richly illustrated, has been received at the periodical depot of Messrs. Fessenden Bros., Lancaster Hall; also by D. Wentworth, dealers in books, stationery, &c., 337 Congress, corner of Oak street. This journal of Fashion takes the lead of all others, and is a welcome visitor to the parlor circle.

HALE having sold all that beautiful lot of Chromos that he offered so cheap, received on Saturday another small lot, that are going fast.

THE first fare of mackerel from Bay Chaleur arrived yesterday—180 barrels by schooner Prima Donna, the result of three days catch.

SCHOOL COMMITTEE.—At the the regular meeting of the School Committee last evening, the election of teachers for the public schools for the coming year was concluded. The list is as follows:

Ordered, That Messrs. Merrill, Blanchard and Smith be a committee to consider the subject of the present school accommodations for the section of the city above State street, and to report whether more suitable locations for school houses than the present may be procured.

An order was passed directing a reprinting of the calendar.

A PLEASANT AFFAIR.—The vestry of Plymouth church presented a very brilliant appearance last evening, it being completely filled with the friends of the Rev. Henry D. Moore, who had assembled to meet and exchange greetings with their former pastor. After sufficient time had been allowed for all to renew their acquaintance with Mr. Moore, the company was called to order by the Rev. M. H. Williams, the present pastor of the church, who requested that the congregation should be seated and await further developments from the committee of ladies. These developments soon appeared in the shape of a very liberal collation, including all the delicacies of the season. After the collation the company renewed their social intercourse, and a very pleasant and agreeable evening was spent by all present. Mr. Moore must have been highly gratified by the very cordial reception of his old friends and parishioners, as well as by the large congregations which assembled to listen to his eloquent discourses on Sunday morning and evening.

AIR MOTOR COMPANY.—Last winter Gen. Neal Dow, Renselaer Cram, Rufus E. Wood, Benjamin Kingsbury, jr., James T. McCobb, William W. Thomas and William A. Goodwin obtained a charter from the Legislature to form a company for the purpose of using condensed air as a motor, with a capital stock of five hundred shares $50 each, power being granted to increase this stock when deemed advisable. Yesterday the corporators met at the Mayor's office, and Gen. Dow was chosen chairman pro tem, and William A. Goodwin, Secretary. After accepting the charter and passing the customary by-laws the company adjourned until next week, without permanently organizing.

THE census office reports will show that there are 134 cities in the United States having a population each of 10,000 or over. Massachusetts has eleven of these cities. Boston stands fifth in rank of the whole country, Worcester thirtieth and Lowell thirty-first. Maine has four, Portland being forty-first. Connecticut has five, New Haven holding the twenty-fifth place. New Hampshire has three, Manchester being fifty-fifth. Rhode Island has but one city of over 10,000 inhabitants, and that is Providence, which is twenty-first on the list and the second city in New England. Vermont has only Burlington, and that stands well toward the bottom of the list and is numbered the ninety-fourth. The New England States together have 25 of the 134 cities, or almost one-sixth, and New York alone has 18, and with New England 43, or almost one-third. Washington is the twelfth city in the Union There are only 25 cities numbering over 50,000 inhabitants each.

ARREST OF A THIEF.—We mentioned last week that the dwelling house of Mr. C. C. Paine had been broken into and some articles of clothing had been stolen. A fellow named Charles Smith was suspected, and Sunday night he was arrested on Washington street, but as nothing could be proved against him he was discharged on Monday. After he was discharged Deputy Marshal Sterling discovered where Smith had sold a pair of pants he stole from Paine's house and gave chase to the fellow. Mr. Sterling followed him out to the covered bridge in Falmouth and again arrested him and locked him up. Smith had on, a the time of his arrest, a pair of stolen boots.

RESIGNATION OF A PASTORATE.—Rev. C. C. Parker, D. D., Pastor of the Congregational church and society at Gorham Village tendered his resignation of that trust on last Sunday. A letter to that effect was read by Rev. Mr. Hopkins of Standish, who supplied his pulpit. He desires to be relieved as early as October, and his resons will be given when the subject comes properly before the church and society. Mr. Parker came into this State from Vermont four years ago, where he had met with deserved success. He is a man of ability, and a high-toned gentleman, and has proved himself an energetic laborer here and elsewhere. It is to be regretted that he feels a necessity of leaving our State.

RAILROAD ACCIDENT.—Yesterday afternoon, about 6 o'clock, a switchman employed by the Grand Trunk Railway Co., whose name is reported as Doyle and Daily, met with a serious accident on Commercial street, at the foot of Moulton. He was shackling freight cars together when he was caught by the brake of a box car and thrown upon the track. The car ran over his leg, completing crushing the flesh and muscles from the knee to the ankle, but we do not learn that any bones were broken. He was taken into Messrs. Lyman, Tobey & Co.'s store, and from thence to his home on Newbury street, near the Portland Company's Works, where Drs. Small and Webster attended him.

Andrews, No. 36 Center street, and at the book and periodical depot of Messrs. Fessenden Bros., Lancaster Hall.

FIRE IN DEERING.—The handsome story and a half cottage house of Mr. John Dunham, a little distance from the Seminary buildings, on Stevens' Plains, was destroyed by fire about 5 o'clock Monday afternoon, together with the stable attached to the house. The furniture in the house was all saved. The loss is estimated at about $2000, on which there was insurance for $1500. The fire is supposed to have originated from a defect in the chimney.

DAME RUMOR has it in vogue that on the resignation of Jeremiah Prescott, Esq., as Superintendent of the Eastern railroad, that George Batchelder, the well known and efficient conductor of that road will assume the responsibilities of that office. A better choice could not have been made as he is practically a railroad man.

From Hawes and Cragin we have received the following new music; The Two Roses; song by Verner. Summer Noon Galop by Carl Faust: and Farewell, Farewell 's often heard, or Good-Bye; Song and chorus by J. R. Thomas. All bear the imprint of Oliver Ditson & Co. Boston.

PORTSMOUTH was visited by a heavy shower accompanied by sharp lightning, late Sunday night. The house of Mrs. Ira Dixon was struck and considerably shattered. That there were no lives lost is remarkable. The electric ball struck the chimney, shattered that, throwing some of the bricks forty feet, passed down the back side of the house, tearing off the clapboards, and passed through into a bedroom on the lower floor, striking the post of the head of a bed, completely splitting it to pieces from top to bottom, and jerked the iron castor clear across the room. The bed was occupied by Mrs. Betsey Dixon, an old lady, the mother of Mrs. Ira, and strange as it may seem, she was not seriously harmed.

THAT the freedmen are not a shiftless, improvident race, as has been charged by their enemies time and again, is shown by the monthly exhibit of the condition of the Freedmen's Savings and Trust Company of Washington, D. C. It appears from the report of the Actuary for the month of June last that that the deposits were $1,028,312 87; drafts, $954,420 80; gain in thirty days, $73,892 07.—This is the full season of the year among the people who constitute the great bulk of the depositors in this bank, yet the rate of saving as above being carried through the year would show a gain of nearly one million.

ANNA SCHEINERT, of New York, is after a divorce from Frederick Scheinert, on the ground that the marriage was performed while the plaintiff was under fourteen of age, and against her will. The plaintiff's father is a wealthy down-town merchant. The defendant is a Hungarian, and was introduced to the family as a needy music teacher. He gained their confidence and frequently took the girl out for a walk. On the 24th of April, 1865, Scheinert took his pupil to the house of a friend in 36th street, and there, according to her story, forced her to marry him. The friend officiated as a priest, and performed the services in Latin. Acting upon her fears, he prevented her informing her parents. Three or four days afterwards he took Anna out as usual and then forced her to accompany him to Montreal, where she lived a miserable life for eight months. Her whereabouts was accidentally discovered by her father, and he took means to bring her back. The referee has reported in her favor.

COMMENCEMENT AT DARTMOUTH COLLEGE. On Sunday, at Hanover, N. H., the exercises of Commencement week at Dartmouth College were opened by the delivery of the baccalaureate address by Rev. Asa D. Smith, D D., LL.D., President of the institution. The text was from James i, 25. The subject of the discourse was liberty as related to law. It closed with reference to the faithful services of Professor Woodman, who had died during the year. In the evening, in the College Church, the address before the Theological Society was by Rev. J. C. Bodwell, D. D., of Hartford, Ct. The speaker was introduced by Prof. D. J. Noyes, and in commencing remarked that one of the dangers to which young men were exposed, and which they must answer, is the rationalism of the present day. This was the subject of the evening. It was a fine and earnest address, and laid out the blighting influences of so-called liberal religion and its kindred infidelity with skill and ability.

CENSUS REVISION.—The latest revised tables at the Census office, in Washington, shows the following aggregate of population of all the States and organized territories:—White, 33,586,680; colored, 4,879,323; Indian, 25,733; Japanese, 55; Chinese, 63,196; total, 38,549,987.

Resignation of Gen Parker.

Gen. Parker, Commissioner of Indian Affairs, has resigned. The following correspondence on the subject was made public to day:

Washington, June 27.—To the President:—The effect of congressional legislation since I have had the honor to hold the position of Commissioner of Indian Affairs has been to almost wholly divest the Indian Bureau of all its original importance, duties and proper responsibilities. The Commissioner of Indian Affairs under the present arrangement is merely a supernumerary officer of the Government his principal duties being simply that of clerk to the Board of Indian Commissioners operating wholly outside or almost independent of the Indian Bureau. I would gladly and willingly do anything in my power to aid in forwarding and promoting to successful issue of the President's wise and beneficient Indian policy, but I cannot, in justice to myself, longer continue to hold ambiguous position of Commissioner of Indian Affairs. I therefore most respectfully but firmly tender my resignation of the said office, to take effect the first day of August, 1871. Sincerely thanking you, Mr. President, for the kindness and consideration you have always shown me, I have the honor to be, and and shall ever remain your obedient servant,

(Signed) ELY S. PARKER.

Long Branch, July 13.—Sir: Your letter of the 29th of June, tendering your resignation as Commissioner of Indian Affairs, to take effect the first day of August, 1871, was duly received. In the relations thus happily formed and in the kindly relations which have existed between us for eight consecutive years without cause of complaint as to your entire fitness for either of the important places which you have had during that time. Your management of the Indian Bureau has been in entire harmony with my policy, which I hope will tend to the civilization of the Indian race. It has also been able and discreet. In leaving the public service to pursue a more independent course of life, you take with you my sincere wishes for your prosperity and my hearty commendation to all with whom the accidents of life may bring you in business relations for integrity and ability.

Very truly yours, U. S. GRANT.

Only a Rumor.

A rumor prevailed in all department quarters this afternoon that Secretary Boutwell had resigned, but there was no sensible foundation for the report.

Ku-Klux Committee.

The Ku-Klux investigating committee today examined Col. N. H. Taney, a lawyer of Alabama, mainly with reference to the Satoria disturbances last year, when several colored persons were taken from jail and lynched. Taney admitted the existence of bands of armed and disguised men, and the perpetration of occasional outrages in that county. He considered the purpose of their organization to be to keep the peace and prevent negroes from stealing.

Sheriff Chisholm of DeKalb, Miss., testified that disguised men had committed a number of lawless acts in his county, but they were not now frequent. The great majority of citizens of both parties had aided him in putting them down and preventing their recurrence. Just before leaving for Washington, however, he had been told by leading conservatives that the Democrats were getting up an organization which would control the colored vote and enable them to carry all the elections.

METEOROLOGICAL.

Report from the Signal Office.

WASHINGTON, July 17—7.30 P. M.—Synopsis of the weather for past 24 hours No important change is reported from the Pacific coast. The barometer has fallen rapidly this afternoon in the extreme Northwest. The highest pressure continues in the extreme Southwest. The low pressure which existed on Sunday evening in Southeastern and Southern Texas has moved Northeastward and the barometer has fallen decidedly in Georgia. The temperature is lower on the middle and East Atlantic coast. Fresh Northeasterly winds prevail from Virginia to Maine and Westward. Northeast winds are reported in Missouri and to Indiana and Tennessee. Rain and threatening weather is now reported from Northern Florida and Georgia, and also from Nebraska.

Probabilities—The conditions are probable for local storms to-night from Missouri to Tennessee. Threatening weather with light rain will probably extend during the night over the Carolinas, with severe local storms. Pleasant weather will probably continue from the lower lakes to the Atlantic. Low barometer in the extreme Northwest will probably extend to Lake Huron on Tuesday evening, with local storms West of Lake Michigan.

POETRY.

For the Press.

"A monster mass meeting is announced for to-day to take place at the Battery, on which occasion Gov. Hoffman is to be buried in effigy, and resolutions will be passed commending the first action of Mayor Hall, and denouncing that of the Governor."

All honor to the chief who dared
For God and native land to fight;
And party tactics disregard
For principles of truth and right!
Though factious cowards still may rail
And treat his EFFIGY with shame,
Their traitorous efforts all shall fail
A stain to cast upon his name.

Too long, by far too long have bowed
Our politicians to the nod
Of papal priests and prelates proud,
Forgetting judgments of our God,
Who still will frown on every wrong
Of sect or nation 'gainst his power,
And though delaying vengeance long,
Will ne'er forget the judgment hour.

For clasping hands with those who throned
King Cotton on the necks of slaves,
Our blood and treasure have atoned,
And 'till we can forget the graves
Where sleep those gallant men who fell
For Freedom's name on battlefield,
Who DARED for votes our rights to sell
And to the scarlet whore to yield?

For though we freely may concede
The right to WORSHIP as they please,
To every sect and every creed,
Not one those blood-bought rights shall seize,
Nor dictate who shall spread their flag
Upon our freedom-freighted air;
Or with fanatic hands dare gag
A subject of our pennon fair.

But few such scenes, and "Sam" once more
Shall lift his banners to the sky,
And through our land from shore to shore,
"No POPERY" shall be the cry:
For thrice, for truth and liberty,
Our sons in war's array have stood,
And that Columbia might be FREE,
Have freely bathed her soil in blood.

Some Day of Days.

Some day, some day of days, threading the street
With idle, heedless pace,
Unlooking for such grace,
I shall behold your face!
Some day, some day of days, thus may we meet.

Perchance the sun may shine from skies of May,
Or winter's icy chill
Touch whitely vale and hill.
What matter? I shall thrill
Through every vein with summer on that day.

Once more life's perfect youth will all come back,
And for a moment there
I shall stand fresh and fair,
And drop the garment care;
Once more my perfect youth will nothing lack.

I shut my eyes now, thinking how 'twill be—
How face to face each soul
Will slip its long control,
Forget the dismal dole
Of dreary Fate's dark separating sea;

And glance to glance, and hand to hand in greeting,
The past with all its fears,
Its silences and tears,
Its lonely, yearning years,
Shall vanish in the moment of that meeting.

The Importance of Fresh Air.

In an article on the importance to health of having our sleeping apartments well supplied with fresh air, the London *Cooperator* says:

In a word, then, we may say say a sleeping apartment should be large, lofty, and airy. It is a poor economy for health to have large and spacious parlors, and small, ill-ventilated bedrooms. Fashion, however, is a reigning deity in this respect, and will, no doubt, continue to bear sway, notwithstanding the protest against her dominion.

You will scarcely drink after another person from the same glass, yet you will breathe, over and over, the same air, charged with all the filth and poison of a hundred human bodies around you. You cannot bear to touch a dead body, because it is so poisonous and polluting; but you can take right into your lungs, and consequently into your body, your system, those poisonous particles and noxious exhalations which the bodies around you have refused, and which have been cast into the atmosphere by their lungs, because the health of their bodies required them to be thrown off. If the "timorously-nice creatures who can scarcely set a foot upon the ground," who are so delicate that they run distracted at the crawling of a worm, flying of a bat or squeaking of a mouse, could see what they breathe at the midnight carousal, the very polite ball, and the bright theater, they would never be caught in such company again. Nay, if they could see what they breathe in their own dwellings, after the doors and windows had been closed a little while, they would soon keep open houses. More sickness is caused by vitiated air than can be named. It is one of the most prominent causes of scrofula, which is but another name for half the diseases that attack the human body. It vitiates and destroys the whole fountain of life—the blood."

In the office of a New York paper there stood in type the report of a sermon, and a paragraph about the career of a mad dog. In "making up," the two got mixed up, and the readers of the paper next day were astounded by the following melange: "The Rev. Jas. Thompson preached to a large audience last Sunday. This was his last sermon previous to his embarkation for Europe. He exhorted his brethren and sisters, and after a prayer, took a whim to cut up some frantic freaks. He ran up Smith street to Brown, and down Carr street to College. At this stage of the proceedings some boys seized him, tied a tea kettle to his tail and let him go. A great crowd gathered, and for a moment there was a lively scene. Finally, he was shot by a policeman."

WHITE'S SPECIALTY FOR DYSPEPSIA.

This is not a new preparation, to be tried and found wanting. It has been prescribed daily for many years in the practice of an eminent physician, with unparalled success. It is NOT expected or intended to cure all the diseases to which the human family is subject, but is warranted to Cure Dyspepsia in its most obstinate form, relief being always obtained from the first use, and a permanent cure effected when properly continued.

FALMOUTH HOTEL,
Portland, June 23, 1871.

Am. Con. Fire Ext'r, Boston.

Your Extinguishers were very effectual at a fire in the House this A. M., which was well underway before discovered, having undoubtedly been burning between two and three hours. The room in which the fire caught is on the fourth floor and when I reached it, all the casing and door was on fire, the partition between the adjoining room was nearly burnt, the floor timbers were more than half burnt off, and had spread some distance from where it started. If not for the Extinguisher it would have been a very disastrous fire as the loss by water through damage to the walls and furniture would have been very great, whereas now it will cost less than a thousand dollars to put every thing in as good condition as before the fire.

Agent for the State of Maine and New Brunswick.

☞ Agents wanted in every town in the State.

It has been about one year since the University Medicine was introduced into this State. Notwithstanding the strong opposition from the profession and their particular friends, the sales have increased from month to month until they have reached $500 per day. Hundreds of certificates can be produced if necessary, of cases cured in Portland and vicinity, Many who were considered incurable are now enjoying perfect health.

CATARRH (the mother of consumption,) Scrofula, Salt Rheum, and many other diseases hitherto considered incurable, readily yield under treatment of the University Medicines.

FEMALE DISEASES treated with perfect success. Having treated over two hundred cases within the last three months, I consider it safe to warrant a perfect cure to 95 cases out of every one hundred, without cauterization or the least exposure.

SPERMATORRHOEA, the greatest destroyer of humanity on the face of the Globe. How many bewail the loss of precious vitality without having the slightest idea of the cause, their manhood is daily vanishing and they are gliding into a state of hopeless decay. I have treated over five hundred cases of this malady within six months with the University Medicines with perfect success.

Persons afflicted with diseases will please call or send and get a book (free), wherein they will find their diseases explained, and necessary remedies.

Certificates of Cures.

I have been troubled with Scrofula all my lifetime and Neuralgia, in the head for seven years, and have consulted good physicians from Maine to New York without any benefit whatever. I have taken six bottles of the cancer plant and one and one-half of the Neuralgia Elixir, and a little of some other kinds and I now feel better than I ever was before in my life. I cannot say with Mr. Munsey, that I feel twenty years younger, being only twenty eight, but can say I never felt so young to my knowledge in my life.

I think the worth of the Medicine cannot be estimated in words or money.

MRS. A. O. W. FOSTER, Wilton, Me.

Cases Treated by Letter.

DR STAPLES:—One bottle of your extract of Cancer Plant cured my little boy of Scrofula of 15 months standing. It entirely healed over, and not give a full idea of his sufferings. We employed five physicians without relief. His sores are all healed and he appears perfectly well. We think it is a wonderful cure. Several of our friends are taking the medicine with good success.

MRS, WM. J. LEWIS.
Old Town, Sept. 17, 1870.

SOUTH PARIS, Feb. 2, 1871.

DR. STAPLES—Dear Sir:—The medicine I got at your place, Jan. 20, has done wonders for me. It is all you recommend it to be.

You may make any use of the above you think proper. Yours truly, SETH MORSE.

The above case has been treated for the past four years by different physicians for cancer.

A REMARKABLE CURE!—I have been troubled with a bad Scrofula Humor all my life. A fearful sore broke out on my neck. For six months I was under treatment of the best medical advisers I could find in Portland, but all the time grew worse; my appetite failed and I became so weak and emaciated that I could walk but a short distance without help. In this condition I commenced taking the University Medicine. In one week my appetite was good and the deathly sinking pain in my stomach vanished. In two months my sore was healed. I have since gained fifty pounds in weight and am now every way well.

HENRY D. TODD, Tolman Court.
Portland, Jan. 20th, 1871.

About a year ago, I was so badly affected with Kidney Disease and general debility, that I could scarcely attend to my business. I took a few bottles of University Medicine, and have been well up to the present time. CHAS. E. CLUTON.
Store 312 Congress St., Portland.

I was afflicted with sciatica for three months most of the time so badly that I could not pull off or put on my boots and stockings, and in order to pick up anything from the floor had to get down on my knees, and then could not lift five pounds in that position. By using the University Medicines I was cured, O. O. NEWHALL,
Firm Gosse, Newhall & Co., Printers,
Cor. Exchange & Middle Sts., opposite Marble P, O.
Portland, Dec. 13, 1870.

For three years I was badly afflicted with Asthma, Catarrh, and a fearful consumptive cough.

I was perfectly cured with the University Medicines in six weeks. For the past two months I have been continually exposed to wet and cold, without the least return of symptoms of the above diseases.

CAPT. A. CLEAVES.
Cape Elizabeth, June 3, 1870.

For fifty years I have been troubled with Scrofula. Some fifteen years ago a fearful ulcer broke out on my leg. Three months ago it had extended from the ankle joint nearly to the knee. I could not move without great pain. In this condition I commenced taking the University Medicine.

At first it drove out a fearful humor all over me. In a few days the humor began to subside, and the ulcer is now healed and I feel like a new being.

ELIZABETH CHAMBERLAIN, 38 Chestnut-st.
Portland, Aug. 30.

For twenty-five years I have suffered with Scrofula and Salt Rheum, (or Tetter.) Have paid out hundreds of dollars, and been treated by several first-class physicians without benefit. Some four weeks ago, I commenced using the University Medicines.—At the time my forehead and head were covered with sores and scaliness of the skin; also my tongue was covered with small ulcers. I am to-day free from all the above troubles, and can heartily recommend these medicines to the afflicted.

S. C. MUNSEY, 27 Chestnut Street.
Portland, Jan. 24, 1870.

This may certify that I had been suffering with the "Rheumatism" for five months, and at that time it seized my right hip and leg, down to the foot. This the physicians called "Sciatic." I tried many kinds of highly recommended medicines which I took for the blood. Still I got no relief for seven months more, all the time doing my best, with as good advisers as we have in our city. Finally I called at the New York University Branch, and the proprietor said he could help me. So I commenced on his medicine, and in four weeks I thought I felt relief, and in eight weeks I was able to leave my cane at home, and have been well up to this time, three months have passed. DAVID KEAZER.
Portland, Aug. 20, 1870.

GORHAM, Maine, Aug. 18, 1870.

Dr. Staples—Dear Sir;—Without solicitation on the part of any person, I, of my own free will and accord give testimony to the virtue of your medicine.

I have suffered extremely with the *Bleeding Piles* and Catarrh for ten years. My memory, sight and hearing were failing from the effect of them. I felt last spring that I must resign my calling.

I have taken two bottles of the "Pile Extract," two of the "Extract of Cancer Plant," and one bottle of "Catarrh Specific." It has done wonders for me. I am a new man. I feel as though I have found a sure cure at last.

Yours Truly, JOHN COLLINS,
Pastor of the M. E. Church, Gorham, Me.

As certain individuals have reported tha the above certificate is false and my disease as bad as ever, I wish to say, at the time I gave the above certificate, the story was not half told. In addition to the above, my leg and back were covered with sores. I am now well and feel at least twenty years younger than I did before taking the remedies.

My advice to the afflicted is to give the medicine a trial and not to be deterred by the cry of humbug. It cured me, it has cured many others. I believe the extract of cancer plant will cure any blood disease in existence.

June 7, 1870.

I had the Catarrh so bad for seven years that my head became confused and painful, I was obliged to get up several times in the night to keep from choking. I employed some of the best physicians in the country without benefit. I was perfectly cured with the University Medicines in three weeks.

A. M. MORGAN, 224 Cumberland St. Portland.
Conductor on the Portland & Odgensburg Railroad.
February 18, 1870.

Since giving the above certificate, I have been perfectly free from Catarrh, through I have been continually exposed to wet and colds.

A. M. MORGAN.

I have been afflicted for twenty years with Chronic Rheumatism. I have spent hundreds of dollars for medical treatment without benefit. Ten days ago, I can truly say it has been more benefit to me than all other treatment I ever received. My place of business is 137 Pearl street. I shall be pleased to answer all enquiries. JOHN TURNER.

I guarantee the above certificates to be genuine, I will forfeit $1000 to any one that will find them otherwise.

Persons having doubts will please address the parties.

DR. J. B. HUGHES,
CAN BE FOUND AT HIS
PRIVATE MEDICAL ROOMS
No. 172 Cumberland Street,

WHERE he can be consulted privately, and with the utmost confidence by the afflicted, at hours daily, and from 8 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the affliction of private diseases, whether arising from impure connection or the terrible vice of self-abuse. Devoting his entire time to that particular branch of the medical profession, he feels warranted in GUARANTEEING A CURE IN ALL CASES, whether of long standing or recently contracted, entirely removing the dregs of disease from the system, and making a perfect and PERMANENT CURE.

He would call the attention of the afflicted to the act of his long-standing and well-earned reputation furnishing sufficient assurance of his skill and success.

Caution to the Public.

Every intelligent and thinking person must know that remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fit him for all the duties he must fulfil; yet the country is flooded with poor nostrums and cure-alls, purporting to be the best in the world, which are not only useless, but always injurious. The unfortunate may be PARTICULAR in selecting his physician, as it is a lamentable yet incontrovertible fact, that many syphilitic patients are made miserable with ruined constitutions by maltreatment from inexperienced physicians in general practice; for it is a point generally conceded by the best syphilographers, that the study and management of these complaints should engross the whole time or those who would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to make himself acquainted with their pathology, commonly pursues one system of treatment, in most cases making an indiscriminate use of that antiquated and dangerous weapon, the Mercury.

Have Confidence.

Al who have committed an excess of any kind; hether it be the solitary vice of youth, or the stinging rebuke of misplaced confidence in maturer years, SEEK FOR AN ANTIDOTE IN REASON.

The Pains and Aches, and Lassitude and Nervous Prostration that may follow Impure Coition, are the Barometer to the whole system.

Do not wait for the consumption that is sure to follow; do not wait for Unsightly Ulcers, for Disabled Limbs, for Loss of Beauty and Complexion.

How Many Thousands Can Testify to This By Unknown Experience!

Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated scientifically and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young men with the above disease, some of whom are so weak and emaciated as though they had the consumption, and by their friends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health.

Middle-Aged Men.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of semen or spermen will appear of the color and feel of a thin milkish hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the

SECOND STAGE OF SEXUAL WEAKNESS.

I can warrant a perfect cure in such cases, and a full and healthy restoration of the urinary organs.

Persons who cannot personally consult the Dr., can do so by writing, in a plain manner, a description of their diseases, and the appropriate remedies will be forwarded immed ately.

All correspondence strictly confidential and will be returned, if desired.

SMOLANDER'S
EXTRACT
BUCHU
The great Diuretic Compound,

Is a sure, quick remedy for all diseases of the Urinary Organs, existing either in male or female, a Irritation, Inflammation or Ulceration of the Kidneys and Bladder, Stone in Bladder, Gravel, Diabetes, Reddish Sediment looking like brick dust, Deposits in Urine, Diseases of Prostrate Glands and Involuntary Discharges, Suppression, Retention or Incontinence of Urine from a loss of tone in the parts concerned in its evacuation, Thick, Cloudy Urine, Morbad Irritation of the Bladder and Urethra, Chronic Catarrh of Bladder, and all Chronic Maladies of the Urino-Genital Organs, Whites, Dropsy, Indigestion, Dyspepsia, Rheumatism, General Debility, Cutaneous Affections, etc.

SMOLANDER'S EXT. BUCHU is a remedy to be relied upon in all cases of great nervous exhaustion, with all its train of alarming symptoms, following from the abuse of Nature's laws, or youthful excesses and indiscretions in either sex, as Palpitation of Heart, Loss of Memory, Horror of Disease, Disincliation of Society, Sleeplessness, Listless and Depressed in Spirits, Weak and Peevish in Temper, the once vigorous mind becoming feeble and vacillating, your usual self confidence and energy gone, fond of Solitude; in fact, a general prostration of the whole system.

The constitution brought to this condition requires the aid of an invigorator to restore the system to that condition of health that is requisite for all functions to be natural.

SMOLANDER'S EXT. BUCHU will restore to that healthy condition.

DR. WELLS having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and to this end he states that he has perfected arrangements for a monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used it his own practice with most happy results the effectual medicine now presented to the public as

ψυχη Psychomancy. This word is derived from the Greek, signifying the power of the soul, spirit or mind, and is the basis of all human knowledge. Psychomancy is the title of a new work of 400 pages, by Herbert Hamilton, A. A. giving full instructions in the science of Soul Charming and Psychologic Fascination; how to exert this wonderful power over men or animals instantaneously, at will. It teaches Mesmerism, how to become Trance or Writing Mediums, Divination, Spiritualism, Alchemy, Philosophy of omens, and Dreams, Brigham Young's Harem, Guide to Marriage, &c. This is the only book in the English language professing to teach this occult power, and is of immense advantage to the Merchant in selling goods, the Lawyer in gaining the confidence of Jurors, the Physician in healing the sick; to lovers, in securing the affections of the opposite sex, and all seeking riches or happiness. Price by mail, in cloth, $1.25; paper covers, $1. Agents wanted for this book, Private Medical Works, Perfumery, Jewelry, &c., who will receive good offers. Address, T. W. EVANS, Publisher and Perfumer, 41 South 8th St. Phila, Pa. jun28t4w
